Ramesh kumar

Full Stack Developer | Django • React • Python

Email: rameshkumarsonani1@gmail.com | **Phone:** +92 3147164621 | **LinkedIn:** https://www.linkedin.com/in/ramesh-kumar-3b4b7224b/ | **Portfolio:** https://ramesh-portfolio-chi.vercel.app/ | **Github:** https://github.com/RameshkumarSonani

Summary

Full Stack Developer with hands-on experience building responsive web applications using React.js, Django, Django REST Framework, Python, PostgreSQL, and REST APIs. Experienced in developing authentication systems, API integrations, e-commerce platforms, and social media applications through internships and academic projects. Familiar with JWT authentication, database integration, reusable React components, and modern responsive UI development using Tailwind CSS. Interested in building reliable software solutions and integrating AI technologies into web applications.

Education

Bachelor of Science in **Computer Science**
Sir Syed University of Engineering & Technology | Karachi , Pakistan
Graduated: August 2026

Focus on Full Stack Web Development, Software Engineering, and AI Integration. Relevant academic projects include AI-based career counseling, e-commerce, social media, and real-time communication applications.

Skills

FRONTEND: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, Redux Toolkit

BACKEND: Python, Django, Django REST Framework, RESTful APIs, JWT Authentication

DATABASES: PostgreSQL, SQLite

TOOLS: Git, GitHub, VS Code

Experience

Full Stack Developer - INTERN
CodeAlpha, Remote
Sept 2026 – Oct 2026

- Developed **2** full-stack web applications using **React.js**, **Django**, **Django REST Framework, PostgreSQL**, and **JWT authentication.**
- Built an E-commerce application with **user authentication**, **product browsing**, **shopping cart**, **checkout workflow**, and 8+ **REST API integration.**
- Developed a social media platform with **authentication, posts, likes, comments, follow/Unfollow functionality**, and **5+ REST API integration**.
- Implemented responsive frontend interfaces using **React.js**, **JavaScript,** and **Tailwind CSS.**
- **Leveraged Git and GitHub** for version control, source-code management, and seamless project tracking.

Ramesh kumar

Full Stack Developer | Django • React • Python

Projects

AI Career Counseling Platform | FYP

Sir Syed University Engineering and Technology , Karachi , Pakistan
June 2024 – August 2025

- **Tech Stack:** React.js, Django, Python, SQLite, Bootstrap, RESTful APIs, TF-IDF, pdfplumber, python-docx, Daphne
- **Architected** a full-stack career counseling platform using **Django** and **React.js**, integrating end-to-end workflows from user authentication to automated career insights.
- **Engineered** an AI-driven matching engine using **TF-IDF algorithms** to compute text similarity metrics and match candidate profiles with relevant job descriptions.
- **Developed 15+ secure RESTful API endpoints** to manage high-volume asynchronous data exchange between the frontend UI and backend data pipelines.
- **Built** a robust document parsing pipeline utilizing **pdfplumber** and **python-docx** to programmatically extract and structure raw resume data into relational **SQLite** databases.
- **Designed** responsive, mobile-first user interfaces using **Bootstrap**, ensuring seamless cross-browser compatibility and optimized user retention.

Techy Store (E-commerce)

Self Made Project
September 2025 – November 2025

- **Tech Stack**: React.js, Tailwind CSS , Redux Toolkit.
- Developed a responsive e-commerce application using reusable React components.
- Implemented **product browsing**, **shopping cart**, and **category filtering**.
- Optimized user experience across desktop and mobile devices.
- **Visit Website:** https://techy-store-beta.vercel.app/

Virtual Assistant (Jarvis)

Self Made Project
November 2025 – January 2026

- **Tech Stack:** Python, OpenAI API, Speech Recognition, pyttsx3, PyAudio, OS, Webbrowser.
- Built a voice-controlled virtual assistant using Python and OpenAI API for intelligent conversational responses.
- Integrated **Speech Recognition and PyAudio** for real-time voice input and **pyttsx3** for text-to-speech output.
- Automated common desktop tasks such as opening applications, websites, searching the web, and executing system commands.
- Implemented **voice-based interaction** to process user commands and provide dynamic responses.
- Integrated **OpenAI API** to enhance Jarvis with AI-powered question answering and natural language interaction.
